Re: Closure Plan for
Cosden Oil & Chemical Company
IL0091766410
031-3903

Dear Mr. Nairn:

Closure of your company's hazardous waste storage facility at 142nd Street and Paxton Avenue, Calumet City, Illinois, does not require approval of the United States Environmental Protection Agency. The Illinois Environmental Protection Agency (IEPA) was delegated Phase I authority to conduct their hazardous waste management program in lieu of the federal program on May 17, 1982. Therefore, your facility is subject only to the closure provisions found at 35 Illinois Administrative Code Part 725. 40 CFR Part 265 no longer applies in Illinois. I have forwarded your closure plan for the facility directly to Mr. Larry Fastep, Division of Land Pollution Control, Illinois EPA, 2200 Churchill Road, Springfield, Illinois 62706. When you have satisfied the Illinois requirements, IEPA will advise this office and we will revise our records accordingly.

If you have any questions on this matter, please contact Mr. Fastep at (217) 782-6760.

Sincerely,

Robert L. Stone
State Implementation Officer

cc: Larry Fastep, IEPA
Bill Padlinski, IEPA
